Hi Cheryl,

I'm attaching a map of the area surrounding the facility that shows some of our water sample point locations for when we talk in a bit.

Hi Exemption 6

I can call you at 3:00 PM if that works for you?

I also sent you an e-mail that I asked Joan to contact IEPA.

Sincerely,

Cheryl Burdett

Hi Exemption 6

Cheryl and I were both out on inspection yesterday. She will be in the office in a little while and I'm sure she will call you back.

Thanks for the info!

-Joan

Cheryl/Joan

Just FYI...One of our citizen CAFO water monitors did some water testing near the Prairie State Gilts CAFO in Schuyler County, IL today and picked up some very high ammonia readings (along with some high nitrate and phosphate results) at two separate sample points to the east and south of where land application took place. It did rain last night and so that could have led to runoff from the field, but wanted to let you know in case it's something to be concerned about.

We have not called anything into IEPA on this yet because I'm hoping to consult with you first. If either of you could give me a call back, it would be much appreciated.

Thank you!

Hi Exemption 6

I asked Joan Rogers contact IEPA to check it out. I am out of town for my kids Spring Break.

Sincerely,

Cheryl Burdett

Hi Cheryl

I just left you a voice mail on your office line to let you know that they are land applying at the Prairie State Gilts CAFO in Schuyler County.

I'm traveling right now and unfortunately did not bring my file with your cell number written down in it!

Anyway, It sounds like they just got started in a cornfield north of the facility today and so it's quite possible it could continue for the next day or so. Apparently it's very muddy out there, but they have been seen knifing the waste in.

Please do let me know if you get this message. I'll try to track down your cell number tomorrow if I don't hear back.

Thanks, Cheryl!
